The picture clip is fun to watch and visualizing the walk will make the following directions even easier.

Don't forget sunblock, a hat and your camera! Enjoy! The map is on the 2nd page.

Directions Walk 11 by Beautiful Plakias (<https://beautifulplakias.com>)

When you get off the bus in Koxare (or park your car near) you walk back where you came from on the main road – after a bend to the left there is a fork in the road where you take the road on the right that goes slightly up (there is a walkers sign here as well -2019) – follow this road – after 600 meters the road takes a sharp right turn (don't go straight ahead here) and 400 meters further you will see a gate on the right side – open the gate and walk up to the ruins of Koredo Castle –

*walk around and enjoy the views*

- go back to the road (don't forget to close the fence again) and continue – stay on this road, don't take the left turn – at the following t-section take a left turn – at the next split in the road after 1.5km stay on this road that bends to the left, don't take the road that goes down on the right - from here on just keep walking up till you reach the top –

*enjoy the spectacular views over Plakias Bay and the south coast of Crete and on a clear day even the north coast*

**If you prefer a partly different walk back to Koxare follow these directions:**

- on the way back down to Koxare take the left turn at the split in the road you passed on the way up, the road that goes down (see above) – you pass a few ruins and a single house – at the following cross section take a U-Turn to the right – take the second left turn (after 1km) – *you will pass the Axion Esti Monastery* – take a right turn 75 meters after you passed the high school – go left at the following t-section – stay on this road, don't take the left turn – you will end at the main road with the bus station a little to your left
