The picture clip is fun to watch and visualizing the walk will make the following directions even easier.

Don't forget sunblock, a hat and your camera! Enjoy! The map is on the 2nd page.

Directions Walk 3 by Beautiful Plakias (<https://beautifulplakias.com>)

You start at the bridge in Plakias and walk towards the pier - you take the first right in between the supermarket and the "hippie" shop - you pass the bio shop , some tavernas and other shops - right after you pass big parking areas on both sides the road curves to the left - cut the corner by passing the house on the right and turn right - the road will take you left over a small bridge - keep walking straight ahead until you see a fork in the road, just before the Plakias Youth Hostel - you take a right turn on the road that goes north - at the next cross section keep going straight ahead and walk up the steep road towards Myrthios - (*Don't forget to look back for the great views towards Plakias*) - you take the 3rd path on your right where you will see the stone walled water canal which will be on your left - from there you just keep following the meandering path along the water canal till you hit the main road - here you turn right and cross the road - after 150 metres, just before a single house, take the U-turn to the left - you are back on the water canal path - at the first fork after 400 meters take the right path to keep following the canal - stay on the this path with the water canal on your left, don't take any left or right turn - *enjoy the beautiful scenery and don't forget to look back every now and then* - you are getting to the end when you see a village on your right (Lefkogeia) - just after you pass a church on your left hand and a parallel road joins the path take the right path at the fork leaving the water canal - at the next split in the road you take the left - at the following cross section don't take the right or left turn and follow the road and you will end up in the heart of Lefkogia. The bus stop is at a stone shelter to the right across the road from a big taverna.

BEA

Driving distance: 151km/187km*
 Driving time: 3h15/4h30*
 * Including scenic route back
