The picture clip is fun to watch and visualizing the walk will make the following directions even easier.

Don't forget sunblock, a hat and your camera! Enjoy! The map is on the 2nd page.

Directions Walk 4 by Beautiful Plakias (<https://beautifulplakias.com>)

You walk from the bridge in Plakias on the coastal road westwards to Souda beach - you pass the new harbour, the exit to Sellia and the beaches of Fotinaraki and Fortinari (both have steps down, the bigger one of the two is easy to see from the road and the smaller one is just before that) - simply follow the coastal road to Souda Beach - at the end of Souda beach, in front of a taverna, take the road to the right - take the first left (300m) - stay on this road at the following t-section, do not take a right turn - after a little less than 200 metres take a left turn -

*(for walk 5 this where you go straight ahead, instead of taking the left turn, and take the first right turn)*

- this dirt road goes up for about 500 metres - great views over Souda Beach here - the road curves to the right - pass the first fenced path down to the sea (private property) - just before the road makes a sharp right turn there is a path down towards a little beach (sometimes you have to open a gate, don't forget to close it behind you) - walk down to the beach - to go the nose of "The Dragon" get off the path to the right and climb over the rocks right near the water till you can't go any further - enjoy the magnificent views towards Plakias and beyond - take the same way back to Plakias.
